JOHN A. SCAFIDE CANDIDATE FOR STATE SENATOR

The Hancock County Eagle is authorized to announce the candidacy of John A. Scafide for the office of State Senator from the 43rd Senatorial District, comprising the counties of Hancock and Pearl River.

Mr. Scafide's statement to the voters follows:

I have, after weeks of serious deliberation, decided to offer as a candidate for the office of Senator for the 43rd Senatorial District, comprising the counties of Pearl River and Hancock. Before presenting my qualifications and policies for your consideration, I beg your kind indulgence and permission to present a brief personal history.

I was born in Bay St. Louis, fifty-one years ago, and am married to the former, Mrs. Scafide. We have two children, a 16 year old son and a married daughter (with two grandsons). I received my high school education at St. Stanislaus College in Bay St. Louis, and was awarded a B. A. Degree from Tulane University in 1933. I signed a contract to play professional football with the Washington Redskins in the fall of 1933. A broken leg suffered in the early part of the season abruptly ended my professional career. In the fall of 1934 I embarked upon a coaching and teaching career which covered a span of thirteen years, interrupted only by 34 months of military service in the United States Navy during World War II. The four year period from 1938 to 1942, I spent at Pearl River Junior College as head football coach and for one season, girls basketball coach.

Alice and I made many wonderful friends during our stay at Poplarville, and many of the boys and girls whom it was my happy privilege to teach and coach are now successful business, professional and social leaders.

Girl Scout Troop 137 will make a trip to Jackson, Miss., Saturday and return Sunday. The group will be accompanied by Mesdames C. C. McDonald Jr., William Whitfield and Adelaide Wyatt.

No definite date has been selected for groundbreaking ceremonies at the National Aeronautics and Space Administration's Mississippi Test Operation in Hancock County, but July 1, is under consideration.

Bart Slattery, chief of information for NASA's Marshall Space Flight Center at Huntsville, Ala., said many factors including construction status and schedules of key officials are involved in final selection of a date.

Capt. William C. Fortune, project manager for the Mississippi Test Operation, during an early April press conference with Gov. Ross Barnett in Jackson, announced a May 15 groundbreaking date.

Slattery, in Gulfport to attend a labor relations conference on construction activities at the test site, said the May 15 date has not proved feasible.

Personal schedules to be considered in selection of a date involve those of James Webb, NASA director, Dr. Werner von Braun, and Sens. John Stennis and James O. Eastland, Slattery noted.

The Mississippi Test Operation is a 13,500-acre site surrounded by a 128,000-acre buffer zone at which NASA and its contractors will ground test the huge Saturn rocket engines and stages to be used in the Apollo lunar landing program. Some 3,000 workers are expected to be involved in its construction.

Arthur F. Necaice, a resident of Rocky Hill Community, near Kiln, announced this week that he will be a candidate for the office of Superintendent of Education, for Hancock County, in the forthcoming August election.

SELECTIVE SERVICE EXTENDED FOUR MORE YEARS

The draft has been extended four more years, until July 1, 1967. This means that the young men of the country must continue to register for the military service.

This series of articles outlines the basic responsibilities and rights of young men under the draft law.

THE MILITARY OBLIGATION - At age 17, a young man (with his parents' consent) may choose among a wide variety of ways to begin the discharge of his current active duty and reserve military obligation. He may enlist in the regular forces for 3 to 6 years. He may enter a number of reserve or National Guard programs. He may volunteer, with parental consent, for induction for two years.

Even after he registers for the draft at age 18, he has ahead of him at the present time 5 or more years in which to choose his own time and method of discharging the military obligation. As he gains more education, these opportunities widen to include various military programs leading toward a commission.

But if he does not make his own choice, at age 20 he may expect induction if he is qualified and not deferred or exempt. And even though he may not be qualified, or is deferred or exempt when his normal turn to serve comes, he may still be put in Class 1-A if at any time up to his 35th birthday he loses the deferment or exemption, or the cause of his disqualification is removed.

If he should be reclassified into Class 1-A after he would normally be inducted and before age 26, he would probably be the oldest man available in his local board and, if qualified, would be the first to be called.

Because of the need for manpower in the Armed Forces, about 3 out of ten men who become 20 in 1962 had entered service voluntarily or by induction. Those who had not were almost all disqualified men. A few were those who were continuously deferred or exempt through age 26.

Government manpower experts estimate that well over half of all men who reach age 26 through the next 4 years will be required to enter service to maintain active and reserve strengths. Disqualification and deferment and exemption will account for the remainder.

Virtually no qualified and available man can expect to reach age 26 without entering service over the next 4 years.

LANDOWNERS AT LOGTOWN DISCUSS PROBLEMS

Problems of landowners were discussed at a meeting of the landowners committee at Logtown Saturday night with approximately 200 interested persons attending.

Asa McQueen, chairman, gave a resume of the committee's progress to date, while August Holden, a committee member, discussed the inequality of the appraisers and pointed out some cases as a comparison in the purchase of land by the government.

Mr. Holden quoted Senator John Stennis as stating in a telephone conversation with him last Wednesday that he had used every available method to encourage the Corps of Engineers to live at a just settlement with landowners and if landowners felt they were not getting a satisfactory offer to take their cases to court.

"Most of the prices offered are ridiculously low," Holden stated, and "while the landowners," he continued, "do not want fabulous prices, I think they should have just and fair consideration with out going to court."

Michael Haas, local attorney, at the request of the committee, attended the meeting and conducted a question and answer period concerning entering their cases in court.

HARC MEETING HELD APRIL 25

The regular monthly meeting of the Hancock Association for Retarded Children was held Thursday, April 25, 1963 at the Hancock General Hospital. In the absence of the President, Warren Carver, the meeting was called to order by the Vice-President, Mrs. Lloyd Lewis.

Mrs. Lewis acknowledged a gift of \$25 from Leo Seal to be used as the organization wished. She also expressed gratitude to the Jaycees for the lovely Easter party given by them for the children.

Mrs. Baker expressed her gratitude to Lester Haverty for the donation of sample foods which permitted her to set up a "play" grocery store for the children. She announced that school would close on May 24 and reopen on September 24. She also voiced a wish to have "open house" at the Center before the end of May. She will discuss this matter with Mrs. Warren Carver and make the necessary arrangements. Mrs. Norton Haas volunteered to send out 100 letters to persons who might be interested in attending.

A movie, "No Less Precious" was shown. It depicted what was being done throughout the country to work with and help retarded children. Mrs. Durbin suggested showing the film to other groups and volunteered to show it at the meeting of the Home Demonstration Club on April 26.

There being no further business, the meeting adjourned.

REPORTS SHOW HANCOCK CANCER DRIVE SUCCESS

As the April Crusade of the American Cancer Society ended Tuesday night in Hancock County, indications were it was a success.

With final reports still to come in and be counted, Dr. Walter C. Russo, Crusade Chairman, said "it looks like another good year in the Society's fight against cancer."

While the chairman would make no flat predictions, he estimated that a total of \$1,900 was possible as a result of the month-long Crusade against \$1,526 raised in 1962.

The chairman said while final figures were not available, he was able to report "more people were reached in Hancock County with life-saving information than ever before." He bases this on the amount of American Cancer Society literature distributed to the public and the increased cooperation of the press, radio and television.

While the 1963 Cancer Crusade is officially ended in Hancock County, Dr. Russo said he hoped that "those who did not make a contribution during April would do so now by sending one to the American Cancer Society, Bay St. Louis. He also said Crusade leaders would welcome additional contributions from those who have already supported the Crusade.

"Such funds," he stated, "would be counted in the 1963 April Crusade."

The chairman pointed out the cancer problem was one that required continuing funds for research, education and service. "Until we bring cancer under control," he added, "there can be no letup."

Dr. Russo, on behalf of himself and the American Cancer Society, expressed gratitude to the people of Hancock County for their "generous support in this humanitarian effort." He also expressed appreciation and grateful thanks to all who helped in the Crusade, the hardworking volunteers, the press, radio and television, community leaders, and others devoted to the conquest of cancer.

LOGTOWN CHURCH 300 ATTEND LAST HOMECOMING

Approximately 300 attending the last homecoming to be held at Spring Branch Baptist Church near Logtown and ground-breaking ceremonies for the new church at Pearlington, Sunday.

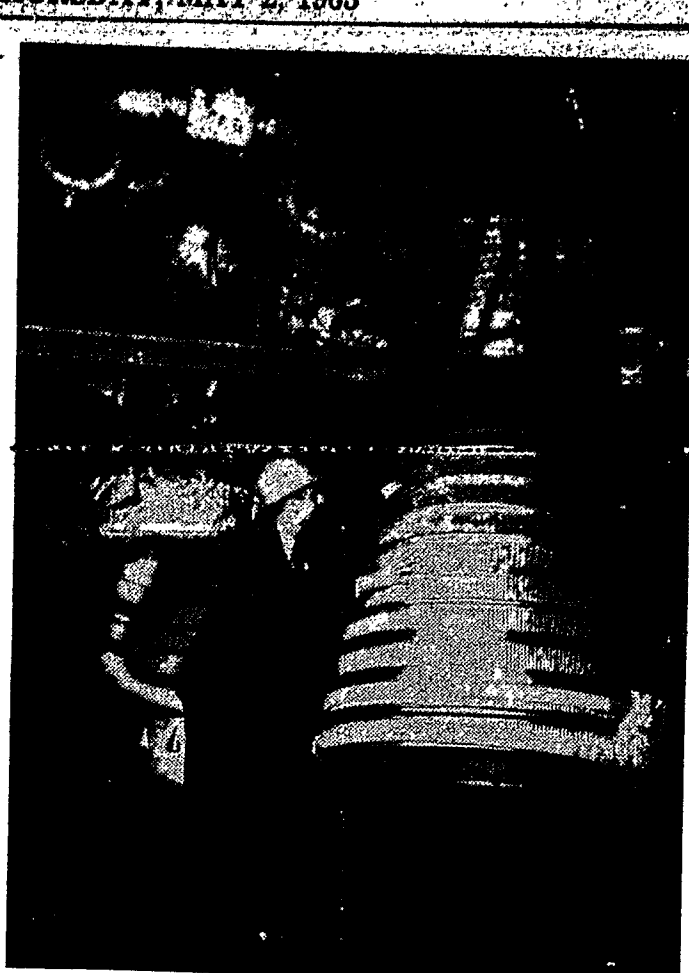

Some of the highlights of the day were the opening sermon by Rev. J. W. Miller of Mobile, together of church members and dinner hosted by women of the church.

August Holden, pastor, broke ground for the new church and introduced the Rev. L. S. Walker, guest speaker, who used as his topic, "Repent and Believe the Gospel."

Mrs. Yvonne Holden Becker, first clerk of the Spring Branch church, gave a brief sketch of the original church and told how a group of 12 people met September 1, 1943, and organized Spring Branch Church, which now has a membership of 80.

The first building, she added, was built at a cost of \$603, the present one at a cost of \$10,000 and the plans for the new church are estimated at a cost of \$20,000.

While having to move the church, which is located in the Mississippi test operations site, Mr. Holden stated, "is heartrending," he feels "the members are willing to make the sacrifice if it will be a blessing to anyone."

New Orleans, La. - Inspecting the exhaust nozzle of one of eight engines which power the Saturn S-1 boosters which Chrysler Corporation Space Division is building at the NASA Michoud Operations plant in New Orleans is A. A. Schwartzman, Chrysler systems engineer. The combined engines develop approximately 32,000 horsepower. The units shown here are part of a full size mockup which Chrysler engineers are assembling at Marshall Space Flight Center in Huntsville, Ala., and was made available to Chrysler for orientation of its engineering personnel. The 82-foot-high boosters will be the first stage of the Saturn I space vehicle to be used in NASA's Apollo moon exploration program.

A MIRACLE

Did you ever hold in your hand a rose, a plant, or even a tiny seed and wonder where its beauty comes from? Or did you plant a seed and watch, day by day, and marvel at nature's way? How miraculous are the ways of nature; so beautiful that man can never fashion or create a rival.

Another word for nature, of course, is God. He creates. Beauty in all its forms comes from Him, and to us they are given; nature's bounties, we call them.

When you go to church this Sunday, say another word of "thanks" for all that is good, all that is beautiful; all that you possess!

THE CHURCH FOR ALL...

ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the

Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and support your Bible daily.

ST. JOSEPH ACADEMY NEWS

A representative from Providence School of Nursing in Mobile spoke to interested juniors and seniors at St. Joseph's Academy Tuesday afternoon.

Elizabeth Selle, Sodality prefect, crowned the statue of the Blessed Virgin at Our Lady of the Woods Shrine Wednesday morning. She was assisted by Anna Maria Badillo, senior.

A Mass in Our Lady of the Gulf Church with the Rev. Michael Kelly as celebrant, followed at 10 o'clock.

CELEBRATES THIRD BIRTHDAY

Robert Fayard Jr., celebrated his third birthday Saturday with a party at the Felicity Street home of his parents.

Bobby's guests were Robin Pitale, Tina and Rhonda Aime, Cherie Elliott, Paul and Anna Cooper, Terri, Jimmy and John Pat Quintini, Christian and Libby Favre, Myrthe and Bea North, Miss T. Ryan and his maternal grandmother, Mrs. Horatio Favre.
